Welcome to our 6th Annual Bull Sale

We would like to thank all our customers for their purchases in the past year, and for their confidence in our program and our cattle. We hope they have done well for you in your programs.

Cattle prices are getting stronger, fat markets are gaining strength. With the decrease in livestock numbers the future markets look stronger for the producer. The dedication and determination of the beef producer to maintain the herd is evident in those who believe in what they are doing.

We believe the selection of bulls this year are equal in quality if not stronger than last year and a more uniform group. We feel the bulls this year are more moderate in frame, long bodied, stouter, thicker and easier doing. This represents the consistency in our cow herd and the sires that we use.

We believe in developing our bulls to their genetic potential without over conditioning and impairing structural soundness.

Our bulls are developed on a ration of 25 lbs. oat silage, 10 lbs. pea and lentil screening pellets, free choice mineral and all the free hay choice they want.

We would like to welcome back our guest consigner, the Allison's of Leveldale Polled Herefords. They have brought out a great group of bulls.

We welcome visitors to the farm prior to the sale to view the cattle. Please join us for lunch on sale day at the barn starting at 11:30 am.

For more information please feel free to call us at anytime.

See you March 28th at Whitewood Auction Mart.

Is breeding better than what he looks himself. Good feet and legs, good wide top, big testicles, clean sheath and tremendous thickness and carries it down to his solid foot. 290T is a calving ease bull. We nicknamed him "catcher mitt". 290T is moderate framed bull.

His daughters are in production and we are impressed with their dispositions. With beautiful udders, small teats, good milking ability and easy keeping deep bodied females. 290T bred 30 cows this year. You are going to hear a lot more on 290T. Average birth weights on bull 82 lbs. and on heifers 75 lbs.

20X is just a little taller, longer and thicker than his sire. He is big boned, with a good heel and solid foot. Just like 290T he also puts a lot of hair on his calves. We used 20X heavier this year as we were very impressed with his calves. Average birth weight on bulls 84 lbs. and on heifers 79 lbs. All calves were born unassisted. 20X will add length and size to your calves. They have nice heads with good extension in the neck. The bulls have good testicles and clean sheaths.

Probably the easiest doing bull in our herd. A bull we appreciate for his massive thickness, good feet and legs. A bull that will put lots of performance in your cattle and still be moderate framed. We are very proud of his offspring. They get better as they get older. Very easy doing. We are very impressed with his daughters with beautiful udders, small teats and good milking ability. His bulls are very thick, deep bodied with big testicles, clean sheath and good hair coats. Doug Henderson always said the mother of this bull is probably one of the best cows in the industry, who is an elite dam, and the full sister is now the top female in the Bowerman's herd. Average weight on heifer calves 83 lbs. and on bull calves 89 lbs. .

59X is a bull very similar to the Legacy bull, but a calving ease bull. We used him on a group of 42 cows this year. They were all born unassisted. A bull that has a lot of performance but with moderate birth weights.

Average weight on heifer calves 75 lbs. and on the bull calves 83 lbs. His bull calves have big testicles with very clean sheaths.

5W offspring are standouts. They are very consistent and uniform. His calves are just like him, tremendous length, wide top, very smooth, big testicles and clean sheaths. Lots of bone, good heel, a very good hair coat and great disposition. 5W daughters are in production and we are very pleased with them. Good udders, small teats and easy doing females. They cross well with the Ambush, Legacy and Rachis. Bull calves average birth weight is 87 lbs. and on heifer calves average 80 lbs.

A complete package- good in every way. Strides out very well with a wide stance, stands on all four corners, so square. Very smooth with a nice head, deep bodied, big boned, wide long top that carries down to his solid big foot, with lots of hair. Big testicles. He would be our choice to replace his sire.

We selected Knockout because he was an outcross to us, with a good set of EPDs.

He is a bull with a great disposition, strong wide loin, with a great hip on him. His calves are deep bodied, a big square hip, good feet and legs and heel. Lots of bone and good hair coats. His bulls have big testicles and are clean sheath. We only have a few selected calves of him in the sale as he was injured during breeding season.

Bull calves average birth weight 87 lbs. and the heifer calves average 81 lbs.

A New Herd Sire

When we selected the sire of 11Y we look for bulls that have good feet and legs, big testicles, lots of hair and a good disposition. Easy doing ability and natural thickness with reasonable birth weights and females with nice udders. That is what we found. 11Y is a bull with lots of length and natural thickness, a bull that really moves out well. One that will put pounds in your calves.

Bull calves average birth weight 90 lbs. and the heifer calves average 83 lbs. All where born unassisted.

On behalf of Leveldale, thank you for taking the time in looking over the Triple J & Leveldale Bull Sale offering.

As it should be with every passing year, this is to date the best group of bulls we have offered from Leveldale. The 2 year olds will appeal to certain operations where maturity, servicing capacity and breeding schedule is needed to cover the rougher terrain of some pasture conditions. The yearlings have the maturity and stature that has given our past customers such great success.

We believe in developing our bulls to their genetic potential without impairing their structural soundness and servicing ability! These bulls are once again developed on a rolled oat and pellet ration with free choice hay. For the last month they have been limit fed the grain portion of their diet to increase hay and forage digestion.

You are welcome to view the videos of the bulls on our website and attain all the current information. Give us a call to line up a time and day to look over the bulls; we would appreciate your visit.

For your convenience, the entire sale will be broadcast online at www.dlms.ca. You will be able to view and bid online by simply setting up an account online. If you need any assistance, please contact Mark Shologan at 1-780-699-5082.

The quality of the Triple J and Leveldale Bull Sale gives you the opportunity to purchase both Angus and Hereford Bulls from reputable breeders keeping the commercial man in mind. We appreciate your confidence in our breeding programs and thank you for your support!

Regards,
Doug, Faye, Cody and Michelle Allison

The Sturgis calves are proving to be some of the best we have raised at Leveldale! He was the high selling bull in our 2011 sale and his progeny made a huge impact their first year out last year. His son's will leave you thickness and great birth-weaning weight ratio that the industry is demanding. Their daughters will be highly maternal with beautiful udders whether purebred or baldies.

This will be the last year of the Touchdown son's to sell. The Oakland Ridge bloodlines have worked very well in our herd. We have a lot of this influence in our cowherd. His son's have the strong maternal traits of the Connie cow family along with the performance of the Oakland blood lines.
