

# LEEUWENBURGH LANGUS

*32<sup>ND</sup>*  
*Annual* SALE  
MARCH 14 . 2023

BALOG AUCTION . LETHBRIDGE, AB . 1PM

CATALOG & BULL VIDEOS AVAILABLE ONLINE

# Welcome

*Willard, Charles, Dennis, Johnny, Jack*

It's our pleasure to welcome everyone to our 32nd annual bull sale. We would like to first off thank all of our customers and friends who have supported our program in the past year. We feel very humbled and blessed to be involved with such great people that support our passion in Angus cattle. We feel very optimistic and excited about the direction of our herd and we feel it is evident in the product we hope to present in this catalog.

We have always been focused on the commercial cattlemen and women. We feel like we have never strayed from the path of performance cattle to chase after a type or trend. Our herd is not bred to produce show cattle and we believe whether you sell your calves in the fall or finish them off we have the right bull for your needs. The basics of performance, maternal traits, fertility along with feed efficiency are at the front of mind with every animal we mate on the farm. We know as well as anybody the challenges with commercial cattle and we aim expand your profit margin with bulls that increase pounds,

produce real world daughters that are fertile and wean payweight.

This is our largest bull offering to date and we are confident in saying it is the most potent group of ranch ready bulls we have ever offered. Performance, structural quality and consistency like no other year in our farms history. Through aggressive embryo work we have expanded the baseline of our cowherd and are more excited the ever the direction of the cowherd.

The bulls are raised and fed to show their potential on a very disciplined high roughage ration with the goal of developing an athletic breeder for years to come. They are raised in a large pens to allow them plenty of exercise all the while allowing us to evaluate them as they travel.

Please take the time to go over the offering and don't hesitate to call or stop by for a visit at the farm. We are fully committed to our product and would be thrilled to discuss your needs and goals. We look forward to your calls and hope to see everyone again on March 14th.

Sincerely,

*Dennis Leeuwenburgh*

Dennis Leeuwenburgh

Welcome Fellow Cattlemen to the Leeuwenburgh 32nd Annual Bull Sale and Welcome to the new dynamic era to the entire livestock industry!

If you have been using the Leeuwenburgh program, you are leading the pack!

Buy the best, most proven genetics available and move your program to the top!

Repeat buyers show the success of a program and once again Leeuwenburgh bulls are the leaders.

The next years are the ones we have been waiting for and selection will be one of the most important criteria!

Come to the Leeuwenburgh Sale and buy into the strongest program and strongest genetics in the Industry!

See you at the Sale

Respectfully,

*Bob Balog*

R.C. (Bob) Balog

**TERMS & CONDITIONS**

Cattle will sell under the standard terms & conditions put forward from the breed association and Balog Auction. These are available upon request.

**ALL BULLS ARE FULLY TESTED AND 100% GUARANTEED  
 NO BULLS SOLD PRIOR TO THE SALE!**

Everything possible will be done to assure that every bull in this sale will be a breeder. Dr. Mitch Oviatt, (Ranch Docs, Lethbridge) will scrotal measure and physically evaluate every bull. Any animal that has not proven itself within 6 months of sale, (September 30, 2023 if in healthy condition, may be returned to the seller at the buyer's expense. The seller reserves the privilege of trying for a 6-month period to prove the animal a breeder. The seller at his option may either return the purchase price or replace the animal with another of equal quality in full settlement and satisfaction of all claims. Any complaints regarding any animal in this sale shall be made to the breeder. All complaints must be reported in writing by the buyer to the seller within 6 months and any animal returned must be free of disease and in good health.

**CATALOGUE INFORMATION**

All information is up to date as of publication date. Pedigree's and EPD's are supplied by the Canadian Angus Association, and all other information has been supplied by the seller. Information in this catalogue is believed to be accurate, but any errors discovered in the catalogue, will be corrected by announcements, from the auction stand at sale time, and such corrections will take precedence over the printed matter in this document.

**IN - HERD SEMEN INTEREST**

Leeuwenburgh Angus reserves the right to draw semen on any bull sold at the buyer's convenience and our cost.

**DELIVERY -\$100 CREDIT IF BULL IS TAKEN HOME SALE DAY**

Assistance will be given in making delivery after the sale.

**PRESALE LUNCH**

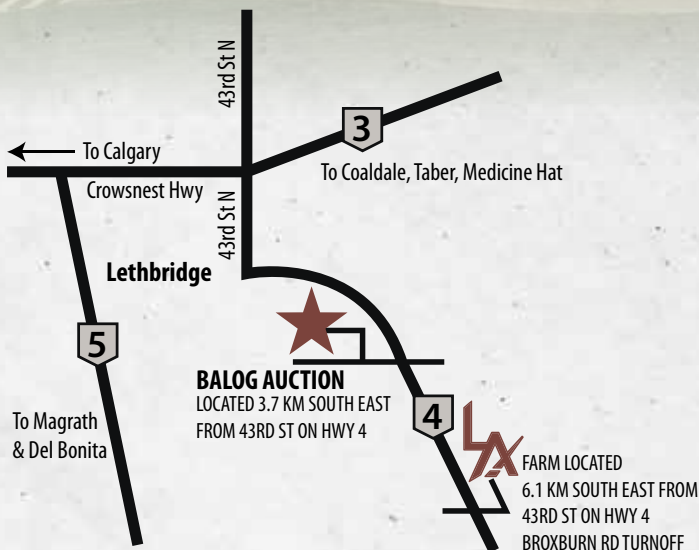

Join us for lunch at 11:30am Sale Day

**INSURANCE**

Available at Balog Auction Services - Maureen- 403-320-1980  
 We strongly suggest you insure your bull purchases.

Slowburn has quickly grabbed the attention of many cattlemen and for good reason. An outstanding herd bull in terms of phenotype and performance. His first calf crop is incredibly consistent showing the natural shape and muscle he possesses to go along with his herd bull presence and authentic angus character. His foot is outstanding, with loads of heel and a perfect leg structure. He has proven to be a high libido, athletic breeder with the ability to cover a large group of females. His dam was our pick of the entire bred heifer division at the U2 dispersal, she has matured into a beautiful strong cow that's as wide as a truck with great feet, huge hip and massive barrel. His sons will be sale highlights and we feel we've only scratched the surface of the true potential of this unique herd bull.

Mclovin is an outstanding breeding bull with a great disposition. He has consistently stamped his progeny with a cherry red color, great skull, depth and sound structure. His daughters are easy to find and have done an excellent job, highly fertile, perfect uddered and weaned some of our best calves in their first year. His sons were in high demand last year and if you're looking to retain females a Mclovin son would be highly recommended.

A high powered beef bull that makes you stop in your tracks with his style and presence. A performance standout of his class, he has gone on to sire some of the classiest bulls we have to offer this year. His dam is a donor for us, beautiful and sound from the ground up, 4E typifies the type of cow we strive to produce. BRXTN 68H will be a big part of our breeding program moving forward.

This powerful Electric son was a feature bull in our 2021 sale to Six Mile Ranch. A crowd favourite because of his performance and added dimension, length and muscle that comes so easy in Electric sons. Solid from the ground up, Hotwire is a real world beef bull that will no doubt add growth and gain ability into his progeny. His maternal grandam is CAA Elite and is a highly fertile front pasture type cow with excellent feet. With his sire Electric 4D now deceased and no remaining semen we plan on making Hotwire a big part of our breeding program in the future and believe he is the right sire for those ranchers looking for consistent performance and payweight.

A densely built herd sire outcross herd sire from Golden Sunset, that we were able to acquire in 2020. Since deceased he was an excellent natural breeding bull that had the ability to cover large groups of cows. Unique in blood as well featuring HF Tiger and the famed DMM Essence cow family. His progeny are consistent with natural thickness, hair and the ability to grow. His daughters will continue his legacy and are proving to be beautiful hardworking females with very good feet.

A calving ease First Down son that from a maternal standpoint will be hard to beat. We believe the next generation of females from First Class will be exactly that. A feature bull in our 2021 sale that was selected by Keho Colony. First Down females are some of our best young cows and to add a donor like 68B and CAA Elite 161R into the blood only solidifies an already outstanding pedigree.

An ET son from the prolific and proven donor cow 936 Echo Y26. After a few conversations with Andrew at Sandhills Red Angus it became quite clear this was the type of cow we wanted to influence our program. Sound from the ground up with an excellent track record of production and fertility in a no nonsense environment. Ridgeline himself is a very correct bull that is moderate but is built extremely dense with ample muscle and base width. His authentic angus character and big bold rib make us extremely confident in his ability to produce females that thrive in any environment.

A sale feature in 2021 that sold to the Rorich's at Cutting Edge Ranch. A bull we were very high on because of his breed leading growth to go alongside one of the very best cow families that we've ever had here at the ranch. An absolute freight train of a bull that bred well and passed along his growth attributes. His dam 7C is a model angus cow with a perfect udder and is as thick as you could make one to go along with a great set of feet.

A world renowned and respected angus bull that has the proven and productive Donna cow family behind him. He consistently sires authentic angus character and a big bold rib and cattle that are packed with red meat. We love the look of his daughters and the sons we have this year will be a worth a second look. Time proven genetics that will no doubt work in most operations

- Desperado 37K represents everything we try to produce
- An early standout, this real performance bull has abundant thickness, muscle shape, length, and superior structure
- A balanced herd sire prospect with a great disposition
- Dam hails from a long line of very productive cows that performed consistently at high altitude and in sub par grass conditions
- Grandam 56C is CAA Elite with a ratio of 105
- Great grandam is CAA Premier and was one of the first ever Black angus females we ever purchased from the Becks at Rainbow Hills
- A bull that fills the replacement pen and will improve udders, feet and add quality hair coats
- Retaining 1/3 interest, call for details

• An eye catching bull that will be sure to impress with his natural muscle, big top and herd bull presence •Big barreled, soft made with a great hair coat to go along with a quiet disposition •Dam is a very impressive donor cow for BJCC, and we expect this stud to fill the replacement pen and propel a herd in the right direction maternally

•A really sweet looking calving ease SAV Rainfall son that came in dam from a moderate made Poplar Meadow cow that did a real good job on her first try •Sleep at night heifer bull •Very good footed, athletic with a great herd bull presence

- A long bodied, thick topped, athletic stunner who grabs your attention with his herd bull look and attitude
- A real standout in grass that exemplifies everything great about angus cattle
- Dam is an absolute beauty, wedge shaped, big barreled cow that is very easy fleshing and has a killer udder
- Calving ease bull that will produce solid females

## CANADIAN AngusONE EVALUATION

Please note that the EPDs listed in this sale catalogue are the product of the new Canadian AngusONE Genetic Evaluation. These EPDs are calculated by Angus Genetics Inc in partnership with the American Angus Association. Therefore, EPDs for Canadian Red Angus, Canadian Black Angus, and American Black Angus animals are directly comparable to each other. This is a completely new base for Canadian Red Angus however, therefore, please be advised that the EPDs are not comparable to last year's EPDs for Red Angus. These EPDs are on a completely different scale, so please familiarize your selves with the new Breed Average and with the new threshold number for traits of importance to you. The right EPD for you will depend on your cow herd, your management, and your breeding goals. For more information on using EPDs please contact your Association, the Canadian Angus Association, at 1-888-571-3580, and for more information about the genetics offered in this catalogue and what might best suit your breeding needs please contact the seller.

**EPD:** Expected Progeny Difference is the prediction of how progeny of each animal are expected to perform relative to the progeny of other animals in the Angus breed. As data continues to accumulate, accuracy levels rise and EPD's can shift accordingly.

**BW:** Birth weight is related to calving ease. Lower birth weights tend to reduce the incidence of calving difficulties. Lower birth weight EPD is more desirable for heifers.

**WW:** Weaning Weight is an indicator of growth from birth to weaning(205 days of age). During this period, the calf's growth is influenced by it's mother's ability to produce milk and it's own ability to grow.

**YW:** Yearling Weight is an indicator of growth from birth to yearling (365 days of age). The calf's growth during this period is influenced by its own ability to grow plus its mother's maternal abilities. It is the best estimate for total growth.

**MILK:** Milk EPD reflects the milking ability of a sire's daughters expressed in pounds of calf weaned.

### CARCASS EPD

**MARB:(%IMF)** Marbling EPD is a predictor of the level of intramuscular fat and is derived using CUP ultrasound data and actual carcass data. Marbling determines quality grade.

**REA:** (Ribeye Area) Ribeye area is expressed in inches<sup>2</sup> and is a predictor of the area of ribeye muscle at the 12th/13th rib.

**CWT:** Is a predictor of transmitting ability for hot carcass weight.

### AVERAGE EPD'S FOR ALL RED CALVES BORN IN 2022

BW	WW	YW	M	MARB	REA	CWT
1.2	39	66	24	0.23	0.37	23

### AVERAGE EPD'S FOR ALL BLACK CALVES BORN IN 2022

BW	WW	YW	M	MARB	REA	CWT
2.0	51	89	23	0.41	0.48	38
